Description:

Rare book

Yes is as captivating and engaging as Hug. With only half a dozen or so words, Alborough gives us another day in the life of Bobo, the chimpanzee (or monkey - not quite sure but you get the idea!) In Yes Bobo has so much fun in his bath that he absolutely refuses to leave the lake after his bath and go to bed. His good friends play with him until he tires, then they carry him home to Mum. The illustrations by the author are amazing. The look on Bobos face when he defies his mother with crossed arms and closed eyes is one I have seen on my daughter and her cousins when the chips were down and they took on the grown up! This is a captivating book and my 20 month old granddaughters already know it by heart and love each piece of the story of Bobos defiance. I wish Mr. Alborough would write some more tales of Bobo for us! I would have preferred to buy this in a board book, like Hug or Tall but it was only available in hard cover paper. This means it cannot go into the girls stash of books to read on their own if it is going to stay in one piece. Bummer.
